*Countries of operation and the limits to be assigned to these countries are determined by the Council of Ministers of the Turkish Government annually. These limits indicate the ceiling of the total risk to be taken in a certain country by International Loans and Medium & Long Term Export Credit Insurance/ Guarantee Programs.

Turk Eximbank determines the total risk amount to be taken in a country by taking into consideration the actual information that may affect the economic and political situation of the country where the project /export transaction shall be realized and the borrower is resident.
